

I am writing regarding my concern over the possible loss of local FM radio station K-LOVE. K-LOVE serves myself, my family and others in my community by broadcasting the encouraging message of Jesus Christ with music and discussion. K-LOVE is the only station I know of in my area that provides this, or at least in the larger geographics which include the San Jose, CA area. It provides a safe and uplifting forum for everyone (ie children also) to listen to. I listen to it on two different stations during my commute. My children usually start and end their school day listening in and I appreciate not having to guard the volume for inappropriate matter. I believe it serves the public interest to have K-LOVE available for people who want a positive and faith based alternative.
